

Service animals are welcome at the Zoo. However, because service animals can pose certain concerns and challenges within a zoo setting, it is important that we advise you of our policy regarding these animals and ask for your cooperation. Because we want all guests to be able to enjoy all areas of the Zoo, if you would like to visit a restricted area, we are happy to provide a guided walk-through of the area by a staff member while another member of your party supervises and safeguards your service animal.
